CE Instructions

University of the Incarnate Word (UIW) Feik School of Pharmacy (FSOP) is pleased to offer continuing education credits at FSOP's 1st annual Summer CE Seminar. Administration of CE is handled through the online CE management program Learning Express CE (LECE). Access to LECE is through this link: <https://uiwfsop.learningexpressce.com/>.

Through LECE, licensed pharmacist attendees will register for the CE seminar and complete the post-test and session evaluation, utilizing the CE "Access Code" provided by the session speakers at the end of each session. This code is necessary to complete the post-test and the session evaluation in LECE. Participants must attend the entire CE activity to receive credit. Upon earning $\geq 70\%$ on a post-test and completing the session evaluation, LECE will transmit the CE credit information to the regulatory bodies at NABP and ACPE. CE credit will be reflected in CPE Monitor™. A certificate of CE credit may be printed through LECE or CPE Monitor™. Attendees will have six weeks to complete the post-test and session evaluation for CE credit. **The deadline to submit the post-tests and session evaluations to obtain CE credit is Monday, September 9, 2019.**

Attendees must verify that their NABP e-Profile ID and birthdate (in MM/DD format) are correctly entered into LECE and correspond with their NABP record. Failure to ensure this information is identical in both programs may result in no CE credit awarded. For any questions regarding CE, please contact Russell Attridge (UIW FSOP CE Administrator) at attridge@uiwtx.edu.

How to Access/Manage Learning Express CE:

1. Login at: <https://uiwfsop.learningexpressce.com/>.
2. Create an account with Learning Express CE. Be sure to include your correct NABP e-Profile ID and birthdate in MM/DD format.
3. Select the appropriate program under the Live programs tab.
 - a. Pharmacists → "PHARMACIST – FSOP Summer CE Seminar"
 - b. Technicians/Students → "TECHNICIAN – FSOP Summer CE Seminar"
4. Click in the box in front of the sessions you attended. Once selected, scroll to the bottom of the screen and click on the green "Register Now" button.
5. Enter or confirm your profile information, confirm your session selections, and click on the blue "Register" button.
6. Click on the green "Take the Test" button for each session.
7. You will be prompted to enter the "Access Code" that was provided by the speaker at the end of their session.
8. Complete the post-test. Note that you must score $\geq 70\%$ on the post-test to move on to the evaluation.
9. After completing the post-test, select the green "Click here to complete an evaluation" button.
10. Once you have completed the evaluation, click the blue "Submit" button. At this point, your data is transmitted to NABP and ACPE. This credit will now be reflected in your CPE Monitor™.
11. After completing the evaluation, you are taken to a screen where you can print the CE Statement of Participation.

The University of the Incarnate Word Feik School of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. Pharmacists may earn up to 4.00 hours of continuing education credit by attending the FSOP Summer CE Seminar following the completion of the CE activities and corresponding post-tests and session evaluations. Sessions are designated as either knowledge-based or applied-based. A list of CPE-certified programs with their ACPE universal activity number, the number of contact hours (CEUs), learning objectives, and speaker information can be found throughout the program. Any conflicts of interest are noted in the program for the activity. Fees for this seminar are \$30 for pharmacists, \$25 for FSOP alumni/preceptors, and \$10 for technicians/students. No relevant conflicts of interest were identified for speakers in this program.

Schedule of Activities

July 27, 2019

9:00am-10:00am → BREAKFAST

10:00am-11:00am

IMMUNIZATIONS CE → A 2019 Update to the Advisory Committee on Immunization Practices (ACIP) Adult Immunization Schedule

UANs: 0445-0000-19-018-L06-P/T

Credit Hours: 1.0 contact hours (0.1 CEUs)

Type: Knowledge-Based

At the completion of this activity, the pharmacist participant will be able to:

1. Discuss the process used by the Advisory Committee on Immunization Practices (ACIP) to make changes to its recommendations.
2. Identify new adult patients eligible for the hepatitis A vaccine following the 2019 adult immunization schedule update
3. Screen patients who may be ineligible to receive the live attenuated influenza vaccine due to comorbidities.
4. Describe the difference between ACIP recommendations and FDA indications for human papillomavirus.

At the completion of this activity, the pharmacy technician participant will be able to:

1. Identify the changes made to the ACIP 2019 adult immunization schedule.
2. Describe patients who may be ineligible to receive the live attenuated influenza vaccine.
3. List the different options available for patients requesting a hepatitis B vaccine series.

Johnathan Cuevas, PharmD

Assistant Professor, Pharmacy Practice
Medication Therapy Management Coordinator
University of the Incarnate Word Feik School of Pharmacy
San Antonio, TX

Dr. Cuevas has no relevant conflicts of interest to disclose.

11:00am-12:00pm

TEXAS LAW CE → 86th Legislature: It's a Wrap!

UANs: 0445-0000-19-017-L03-P/T

Credit Hours: 1.0 contact hours (0.1 CEUs)

Type: Knowledge-Based

At the completion of this activity, the pharmacist participant will be able to:

1. Discuss legislation enacted during the 86th legislative session impacting pharmacy.
2. Identify opportunities for pharmacy as a result of newly-enacted legislation.
3. Describe the importance of pharmacist and technician involvement in the state legislative process.

At the completion of this activity, the pharmacy technician will be able to:

1. Discuss legislation enacted during the 86th legislative session impacting pharmacy.
2. Identify opportunities for pharmacy as a result of newly-enacted legislation.
3. Describe the importance of pharmacist and technician involvement in the state legislative process.

Debbie Garza, RPh

CEO, Texas Pharmacy Association
Austin, TX

Ms. Garza has no relevant conflicts of interest to disclose.

12:00pm-1:00pm → LUNCH

1:00pm-2:00pm

OPIOID CE → Opioids: Are We Still Talking About This?

UANs: 0445-0000-19-020-L01-P/T

Credit Hours: 1.0 contact hours (0.1 CEUs)

Type: Knowledge-Based

At the completion of this activity, the pharmacist participant will be able to:

1. Describe strategies for appropriate opioid use at the patient level, practice level, state level and national level.
2. Differentiate between the naloxone products on the market and choose the best product for a given patient.
3. Identify patients at risk and dispense naloxone under current Texas law.

At the completion of this activity, the pharmacy technician participant will be able to:

1. Describe strategies for appropriate opioid use at the patient level, practice level, state level and national level.
2. Differentiate between the naloxone products on the market.
3. Provide initial screening in a pharmacy setting for naloxone dispensing.

J. Nile Barnes, EMT-P(LP), PharmD, BCPS

Applied Pharmacy Practice Lab Coordinator
University of the Incarnate Word Feik School of Pharmacy
San Antonio, TX

Dr. Barnes has no relevant conflicts of interest to disclose.

2:00pm-3:00pm

STERILE COMPOUNDING CE → Sterile IV Update: Clarifying Changes and Techniques

UANs: 0445-0000-19-019-L07-P/T

Credit Hours: 1.0 contact hours (0.1 CEUs)

Type: Knowledge-Based

At the completion of this activity, the pharmacist participant will be able to:

1. Assign a beyond-use-date based on the low, medium and high-risk categories currently in place by USP 797.
2. Assign a beyond-use-date to a sterile compounded product using the newer recommendations to be published in the updated USP 797 standards.
3. Describe the techniques needed to maintain sterility in the clean room.
4. Discuss and employ solutions for pitfalls in the sterile process when observing or compounding.

At the completion of this activity, the pharmacy technician participant will be able to:

1. Assign a beyond use date based on the low, medium and high-risk categories currently in place by USP 797.
2. Assign a beyond-use-date to a sterile compounded product using the newer recommendations to be published in the updated USP 797 standards.
3. Recall the techniques needed to maintain sterility in the clean room.
4. Identify pitfalls in the sterile process when observing or compounding.

Mike De Luna, PharmD, BCPS

Inpatient Pharmacist
San Antonio Military Medical Center
Ft. Sam Houston, TX

Dr. De Luna has no relevant conflicts of interest to disclose.
