presents

**CANNABINOIDS AND THE TREATMENT OF
LENNOX-GASTAUT SYNDROME**

Presenter: MAJ Thomas F. Robinson, PharmD
PGY-1 Pharmacy Resident, Brooke Army Medical Center, Fort Sam Houston, TX

Upon completion of this activity, pharmacists will be able to:

1. Describe the pathophysiology of epilepsy in patients with Lennox-Gastaut Syndrome (LGS).
2. Discuss the current pharmacologic treatment options for LGS.
3. Identify alternative treatment options for LGS.
4. Evaluate the primary literature assessing cannabinoid efficacy in the treatment of LGS.

Date/Time: Friday, February 8, 2019 from 1:30-2:30pm
Location: UIW Feik School of Pharmacy, 703 E. Hildebrand, San Antonio, TX 78212
Room: FSOP 533 (P3 Classroom)
CPE Credit: 1.0 contact hours (UAN: 0445-0000-19-001-L01-P)
Activity Type: Knowledge-based activity
Target Audience: Pharmacists
Fees: No fees; activity is free-of-charge
RSVP: No RSVP required

The University of the Incarnate Word Feik School of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This program is designed for pharmacists to gain knowledge related to cannabinoids and the treatment of Lennox-Gastaut syndrome. There are no fees for this knowledge-based CPE program. The pharmacist will only receive credit for programs after receiving a 70% on a post-test and an activity evaluation form is completed and submitted through FSOP's Learning Express CE website (<https://uiwfsop.learningexpressce.com/>). For detailed instructions on how to use the site, see the link at www.uiw.edu/pharmacy/alumni/cpe.html. Participants will have six weeks to complete the post-test and evaluation form. The deadline to submit the post-test and evaluation form to obtain CE credit is March 22, 2019.
